

# E2020 INVINCIBLE

*"This very technical waterproof boot is the result of extensive research and testing. Invincible incorporates advanced materials for shock absorbency and lightweightness with safety. A favourite for use in extreme work situations including Rope Access, Emergency Services, Pole Climbing and Special Services. The sole is a special compound designed for outstanding anti slip properties on multiple surfaces. A zip side with storm bellows is incorporated for easy access."*

## CE SPECIFICATION

EN ISO 20345:2004 SRC S3

## UPPER

Supple, breathable leather with an articulated comfort tongue with bellows to prevent ingress of dirt and water. An ergonomic cut down padded collar provides added comfort when flexing the leg

## IMPACT RESISTANCE

Incorporates D3O impact absorbent gel within the side of the upper, giving added protection. This material locks on impact and then returns to its previous state.

## WATERPROOF MEMBRANE

V DRY 100% waterproof breathable membrane bootie. Seam sealed and abrasion resistant

## LINING

Moisture wicking padded lining

## FOOTBED

Full length replacable, energy return footbed incorporating rebound foam with air circulation vents.

## TOECAP

Wide fitting composite non sparking and thermal insulating. Tested to 200 joule impact rating

## PROTECTIVE MIDSOLE

Composite midsole.

## SOLE

Triple density Phylon/Rubber providing high slip resistance. Anti-static and abrasion resistance to the latest EN standards. Heat resistant to 300°C. Acid, alkali, oil and hydrocarbon resistant. Shock absorbing defined heel for safety when working on steps/ladders.

## SIZE RANGE

6(39) - 13(48)
